January 2014 - K&K Repair Services, LLC has completed a successful recapitalization with management. Headquartered in Victoria, Texas, K&K Repair supplies and repairs drilling rig equipment for the oil and gas industry. The transaction restructured equity ownership providing for the retirement of certain owner/managers and allowing new equity participants to join the K&K management team as the company expands its focus to opportunities in the midstream and power generation segments. Waterview served as the advisor to K&K Repair.
